V73

UNA STORIA FAMILIARE

1950

Angelo Ravani inizia l'attività artigianale di lucidatura coltelli in un piccolo laboratorio a Lumezzane in provincia di Brescia.

1956

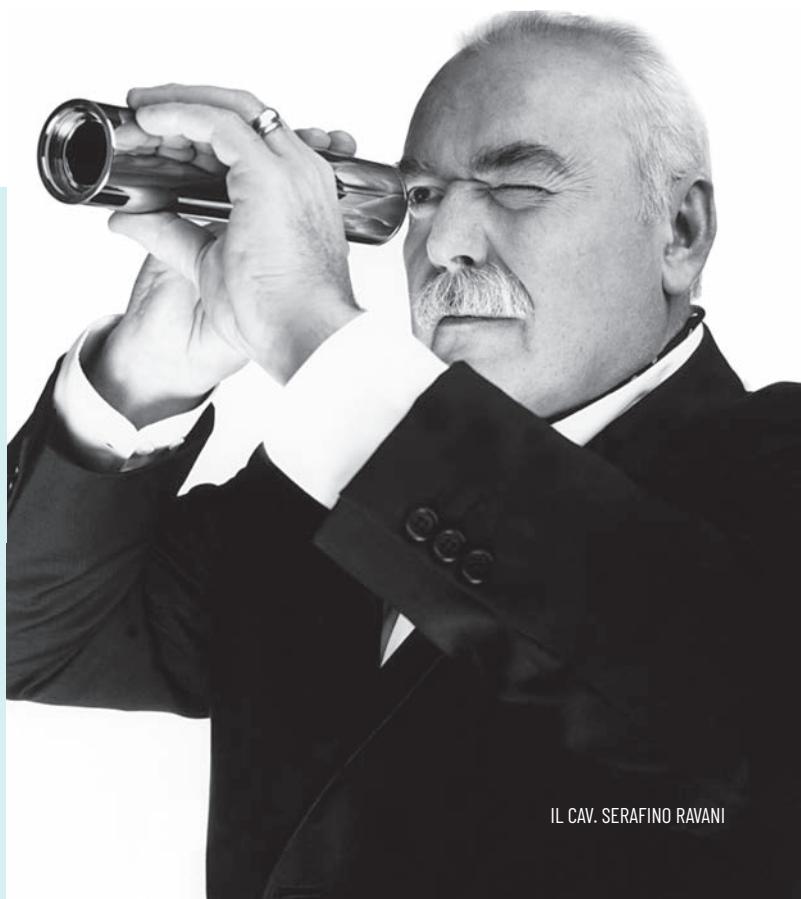

Alla lucidatura dei coltelli viene affiancata la lavorazione dell'ottone. Si dà così il via alla produzione di sifoni e piletti.

1950

Angelo Ravani begins the art of knife polishing in his small workshop in the town of Lumezzane, Brescia in Northern Italy.

1956

Alongside knife polishing, brass manufacturing techniques are introduced culminating in the production of traps and wastes.

IL CAV. SERAFINO RAVANI

SECONDA GENERAZIONE RAVANI

1985

Il figlio ed il fratello del fondatore, Serafino e Pietro, proseguono l'attività.

1993

Passaggio generazionale: i cugini Serafino e Marco entrano nella gestione dell'attività dei genitori.

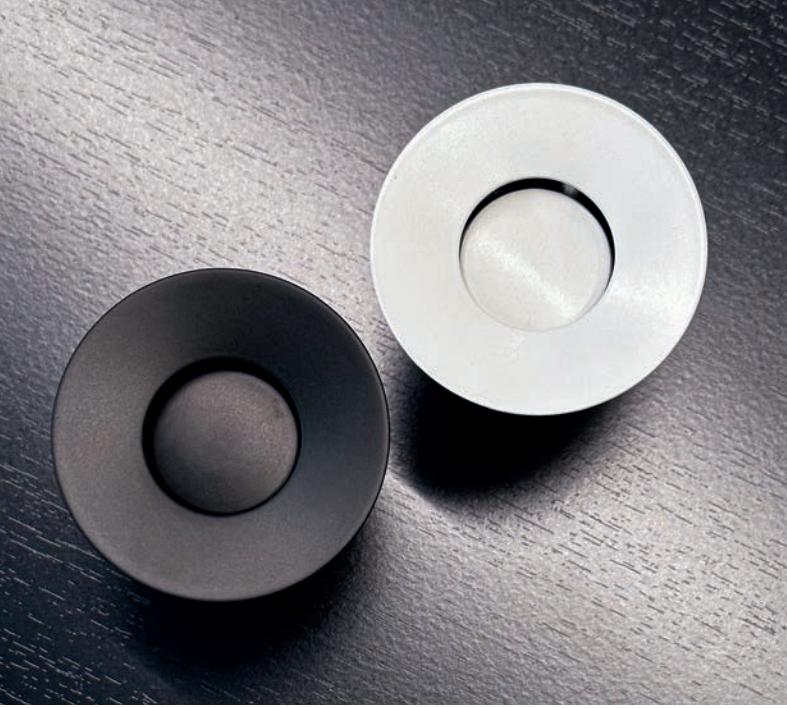

1985

The son and brother of original founder, Serafino and Pietro Ravani take on the day to day operation of the business.

1993

Generational change: cousins Marco and Serafino carry on the business of their parents.

CERTE COSE NON SI POSSONO NASCONDERE

Una realtà produttiva che, grazie all'originalità e alla professionalità, ha saputo imporsi come punto di riferimento nel settore, trasformando un prodotto tecnico in un pezzo di design da sfoggiare nel proprio bagno. La specializzazione nella produzione di sifoni in ottone ha permesso infatti a Ravani di progettare Millenium, che grande successo ha raccolto tra il pubblico anche grazie alle sue forme particolari ed aggraziate, e oggi diventato uno standard mondiale.

Seguendo questa strada, anche per l'importanza sempre maggiore che la stanza da bagno ha acquistato in questi ultimi anni, Ravani ha ampliato la gamma dei suoi prodotti, perseguitando lo scopo di unire all'alta qualità dei materiali un design innovativo e gradevole.

DESIGN IN SICUREZZA

Ravani è sempre in prima linea per la ricerca di soluzioni. Così sono nate Adhoc, Flo e Clo, prime pilette per vasca da bagno e lavabo con troppopieno integrato, che permettono di vivere la bellezza del bagno in sicurezza e totale comfort.

Through innovation and resolute professionalism, Ravani is a business which soon became a market leader, transforming a traps functional item into a design classic. The evolution of this idea and subsequent specialisation in the production of, led to the design of the Millenium trap, which has, through its form and appearance, gone on to become a world standard.

Responding to the increased role the bathroom plays in modern homes, Ravani expanded its product range with the purpose of combining high quality materials with innovative and eye-catching design.

DESIGNED, SAFELY

Ravani continuously seeks solutions. As a result, Adhoc and Flo are the first waste traps for bath and sink with integrated overflow, ensuring peace of mind to enjoy the bathroom in total comfort.

DESIGN ORIGINALE E FINITURE IMPECCABILI

Original design with flawless finish

INNOVAZIONE TECNOLOGICA VIVERE IL BAGNO NEL COMFORT E IN SICUREZZA

Technological innovation ensuring bathroom comfort and Safety

CURA NELLA REALIZZAZIONE, MATERIALI DI PRIMA QUALITÀ, ATTENZIONE AI DETTAGLI

Care taken at every step, using finest raw materials and attention to detail

PERSONALIZZAZIONE DEL PRODOTTO PER SODDISFARE OGNI NECESSITÀ

Customised products for every requirement

DA 70 ANNI SODDISFIAMO CON SUCCESSO I GUSTI E LE ESIGENZE DEI NOSTRI CLIENTI

Satisfying the tastes and needs of our customers for over 70 years.

5

sushi ba(th)r(oom)

Fatevi sorprendere dall'originale design di Gaudi, il nuovo capolavoro disegnato da Serafino Ravani. Dedicato a chi cerca essenzialità, armonia e la più naturale espressione di buon gusto anche in bagno. Solo freschezza creativa. Senza nulla aggiunto.

NOVITÀ CATALOGO

ADHOC CON COVER

ADHOC, l'iconica piletta per vasca, dotata di troppopieno integrato, si trasforma.

La nuova versione 2140 è equipaggiata con cover in diversi materiali: ottone, ceramica, solid surface e acciaio inox.

Il nuovo design si integra alla perfezione con le forme delle vasche freestanding contemporanee, donando sicurezza stilosa al bagno.

ADHOC, the iconic bathtub waste, equipped with integrated overflow, has evolved. The new version 2140 is equipped with covers in diverse materials: brass, ceramic, solid surface, and stainless steel.

The new design integrates perfectly with the shapes of contemporary freestanding bathtubs, giving stylish security in the bathroom.

PILETTA CLO REGOLABILE

La piletta **CLO**, dotata di troppopieno integrato e mantenimento del livello d'acqua, cambia pelle.

Il restyling presenta diverse novità tra le quali:

- regolazione del livello di apertura attraverso un nuovo sistema esclusivo (patent pending);
- nuovo raccordo con aeratore più leggero, elegante e performante (patent pending).

The CLO waste, equipped with integrated overflow and water level maintenance enjoys a redesign.

The restyling offers several new features:

- adjustment of the opening level by way of a new exclusive system (patent pending);
- new connection with aerator that is lighter, more elegant, and high performing (patent pending)

SISTEMA UNIKO

Nuovo sistema click-clack convertibile in scarico libero esclusivo Ravani (patent pending).

Il meccanismo permette di installare la piletta sia in versione click-clack, sia in versione scarico libero, utilizzando un unico componente, semplicemente posizionando la chiave di settaggio in posizione aperta oppure chiusa.

Il **SISTEMA UNIKO** equipaggia tutte le pilette della serie Unika.

New click-clack system convertible into free draining exclusive to Ravani (patent pending).

The mechanism allows installation of the waste both in click-clack and in free drain version, using a single component, simply by placing the set-up key in an open or closed position.

The **UNIKO SYSTEM** fits all wastes from the Unika series.

PILETTA REVERSE

REVERSE è una piletta click-clack che nasce per eliminare in modo semplice l'ingombro in superficie del tappo quando la piletta è in posizione aperta.

Il funzionamento del tappo di apertura si trova infatti in posizione più bassa rispetto al livello della piletta e in posizione aperta si posiziona al livello della superficie del lavabo.

REVERSE is a click-clack waste created to find a simple way to eliminate the obstructive size of the drain plug when the waste is in the open position. The working of the plug is in fact in a lower position compared to the level of the waste and when open, positions itself at the level of the surface of the sink.

SISTEMA DI AERAZIONE

Un nuovo **SISTEMA ESCLUSIVO DI AERAZIONE** (patent pending) equipaggia il distanziale per il sifone Kompatto, al fine di utilizzarlo al meglio in combinazione con la piletta CLO. Lo stesso sistema di aerazione correda inoltre il raccordo cilindrico con aeratore della piletta CLO.

Il sistema di aerazione può essere inoltre utilizzato su tubi di scarico e sifoni per regolare la pressione dello scarico d'acqua di tutte le componenti del bagno, evitando l'accidentale svuotamento dei sifoni.

A new **EXCLUSIVE VENTILATION SYSTEM** (patent pending) fits the spacer for the Kompatto trap, to enable best use in combination with the CLO waste. The same ventilation system accompanies the CLO waste cylindrical fitting with aerator.

The ventilation system can also be used on outlet pipes and wastes to regulate the pressure of the water discharge for the bath components, avoiding accidental emptying of the trap.

PILETTA VASCA

POP: piletta click-clack con corpo piletta filettato, disponibile con cover in diversi materiali: ottone, ceramica, solid surface e acciaio inox;

POP UNIVERSAL: piletta POP in versione con vite centrale;

FLIPPER: piletta con tappo rotante.

POP: click-clack waste with threaded waste body available with cover in diverse materials: brass, ceramic, solid surface, and stainless steel;

POP UNIVERSAL: POP waste version with central screw;

FLIPPER: waste with rotating cap

CLO

TROPOPIENO INTEGRATO
A RISPARMIO IDRICO

Integrated water-saving overflow

TROPPOPIENO AUTOMATICO

CLO è progettata per aprirsi e chiudersi automaticamente quando l'acqua all'interno del lavabo raggiunge l'altezza pre-impostata e successivamente scende sotto il livello di sicurezza.

REGOLAZIONE ALTEZZA

CLO è dotata di un esclusivo sistema di regolazione dell'altezza di apertura, regolabile dall'installatore.

FACILITÀ DI INSTALLAZIONE

CLO si installa come una normale piletta click-clack e non necessita di connessioni elettriche.

CESTELLO Estraibile

CLO è dotata di comodo cestello estraibile, utile per facilitare la manutenzione e la pulizia.

AUTOMATIC OVERFLOW

CLO is designed to open and close automatically when the water inside the basin reaches the pre-set height and subsequently drops below the safety level.

HEIGHT ADJUSTMENT

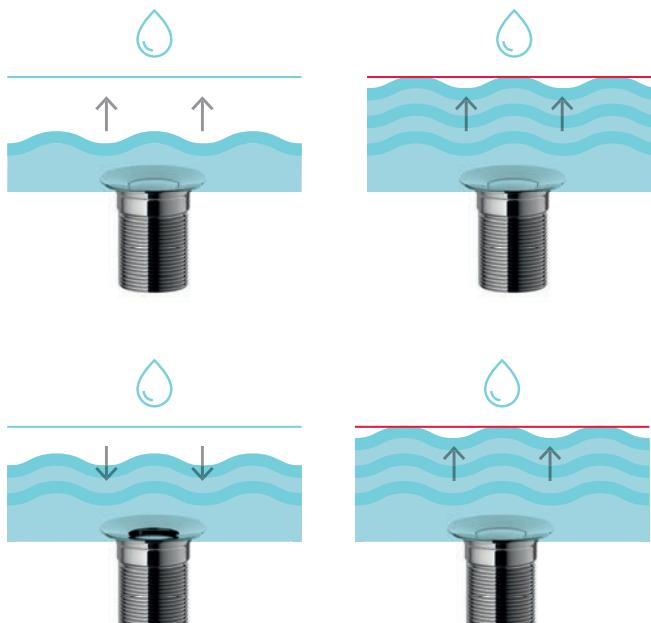

CLO is equipped with an exclusive regulation system of the opening height, adjustable at time of installation.

EASY INSTALLATION

CLO is installed like a normal click-clack waste and does not require electrical connections.

REMOVABLE BASKET

CLO is equipped with a convenient removable basket, facilitating maintenance and cleaning.

Mantiene il livello d'acqua nel lavabo

Tutte le versioni sono dotate di comodo cestello estraibile

All models are equipped with removable basket

CERTIFICAZIONE

La piletta CLO è certificata NF, organismo che ne garantisce la conformità agli standard UNI EN 274. CLO ha inoltre superato positivamente il fouling test, durante il quale è stata testata per valutare la sua funzionalità nel tempo.

CERTIFICATION

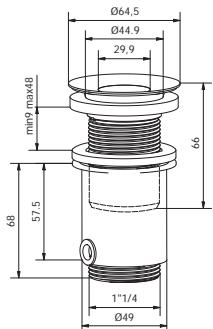

The CLO drain is NF certified, a body that guarantees its compliance with UNI EN 274 standards.

CLO also passed the fouling test, during which it was tested to evaluate its functionality over time.

FLO

FLO: SICUREZZA SEMPLICE

FLO: SIMPLE SECURITY

APERTURA AUTOMATICA

FLO è progettata per aprirsi quando l'acqua all'interno del lavabo raggiunge il livello di sicurezza pre-impostato, svuotando così il lavabo prima che l'acqua tracimi

CESTELLO ESTRAIBILE

L'installazione e la pulizia della piletta FLO sono semplicissime, grazie al cestello estraibile che permette di inserire ed estrarre facilmente il meccanismo dalla sede del porta-piletta.

ALTEZZA APERTURA

FLO viene fornita con apertura standard a 8cm dal filo del tappo, può essere fornita su richiesta in un range tra 7cm e 11cm.

BREVETTATA

Il meccanismo della piletta FLO è un dispositivo esclusivo brevettato Ravani.

AUTOMATIC OPENING

FLO is designed to open when the water inside the washbasin reaches the pre-set security level, thereby emptying the washbasin before the water overflows.

REMOVABLE BASKET

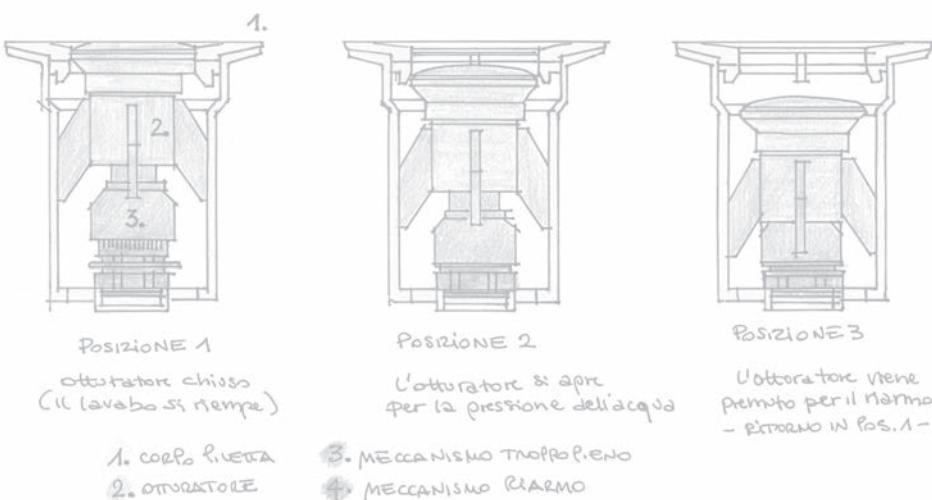

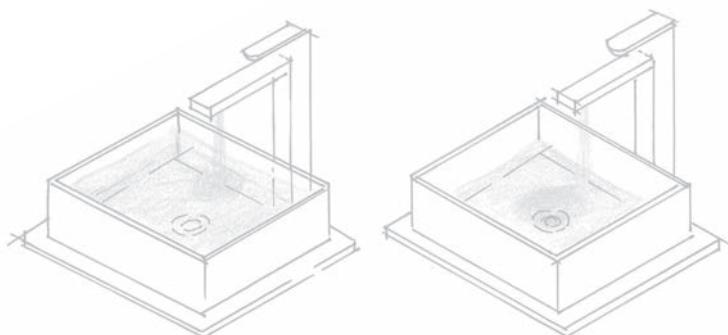

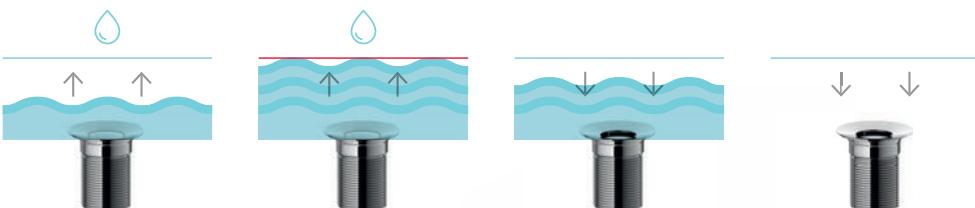

The installation and cleaning of the FLO waste is easy, thanks to the removable basket that makes it possible to insert and remove the mechanism easily from the base of the waste holder.

OPENING HEIGHT

FLO is supplied with a standard opening at 8cm from the wire of the plug. Measurements between 7cm and 11cm available on request

PATENTED

The FLO waste mechanism is an exclusive Ravani patented device.

CERTIFICAZIONE

La piletta FLO è certificata NF, organismo che ne garantisce la conformità agli standard UNI EN 274.

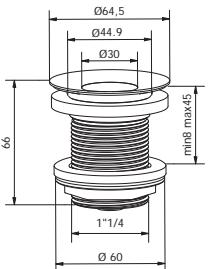

CERTIFICATION

The FLO drain is NF certified, a body that guarantees its compliance with UNI EN 274 standards.

ADHOC

LA PILETTA INTELLIGENTE PER VASCA DA BAGNO

THE INTELLIGENT BATH WASTE

TROPOPIENO AUTOMATICO

ADHOC è progettata per aprirsi automaticamente quando l'acqua all'interno della vasca raggiunge i 40 cm di altezza.

MANTENIMENTO DEL LIVELLO DI ACQUA NELLA VASCA

Successivamente all'apertura automatica, ADHOC si chiude quando l'acqua raggiunge i 32cm di livello, mantenendo sempre un livello costante di acqua nella vasca.

I livelli di apertura e chiusura sono personalizzabili su richiesta.

FACILITÀ DI INSTALLAZIONE

ADHOC si installa come una normale piletta click-clack e non necessita di connessioni elettriche, la piletta viene fornita completa di sifone dedicato.

CESTELLO ESTRAIBILE

ADHOC è dotata di comodo cestello estraibile, utile per facilitare la manutenzione e la pulizia.

SISTEMA BREVETTATO

ADHOC è un prodotto esclusivo e realizzato grazie a un sistema brevettato Ravani.

AUTOMATIC OVERFLOW

ADHOC is designed to open automatically when the water inside the bath reaches a height of 40cm.

MAINTAINING THE WATER LEVEL IN THE BATH

After automatic opening, ADHOC closes again when the water reaches a level of 32cm, therefore always maintaining a constant level of water in the bathtub. The opening and closing levels are customisable on request.

EASY INSTALLATION

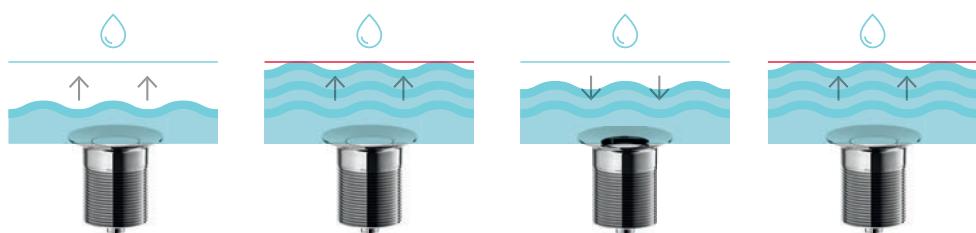

ADHOC is installed like a normal click-clack waste and does not require electrical connections, the waste is supplied complete with dedicated trap.

REMOVABLE BASKET

ADHOC is equipped with a convenient removable basket, facilitating maintenance and cleaning.

PATENTED SYSTEM

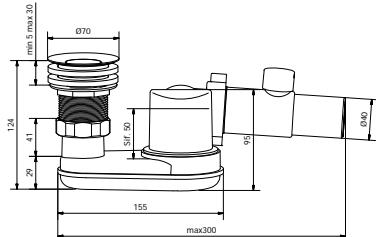

ADHOC is an exclusive product and created thanks to a Ravani patented system.

WASTES

UNIKA

ONE SYSTEM TWO APPLICATIONS.

IL MECCANISMO:

UNIKO è il nuovo esclusivo scarico Ravani.

Grazie a un sistema brevettato, ruotando il selettore posto sulla parte superiore del meccanismo, lo scarico può essere facilmente trasformato da un sistema "click-clack" a un sistema a flusso libero, quindi può essere installato su qualsiasi tipo di lavabo, con o senza foro di troppo pieno.

Una volta avvitata la cover sul meccanismo la piletta sarà protetta da cambi di selezione accidentali.

La piletta UNIKA si adatta a tutti i lavabi.

THE MECHANISM:

UNIKO is the new exclusive Ravani waste system.

Thanks to a patented system, by turning the Selector above mechanism, the waste can be easily transformed from a click-clack system to a free-flow system, therefore it can be installed in any type of washbasin, with or without overflow hole.

Once the cover has been screwed onto the mechanism, the waste will be safe from accidental selection changes.

UNIKA fits all washbasins.

La ceramica di Caltagirone è uno dei più famosi manufatti artigianali siciliani, conosciuti in tutto il mondo. Le sue origini sono molto antiche. Secondo gli esperti, i ceramisti arabi, sin dall'827, a seguito della conquista musulmana dell'isola e il successivo insediamento, avrebbero dato un forte impulso all'arte ceramica, trasferendo i procedimenti tecnici usati in Oriente. I sifoni Caltagirone sono disponibili in diverse fantasie e colorazioni, dal classico disegno siciliano con tema di foglie, alla coda di pavone, vi è inoltre la possibilità di realizzarlo con disegni personalizzati.

The ceramics of Caltagirone are amongst the most famous of Sicilian handicrafts, known worldwide. Their origins are ancient. According to experts, since 827, following the Muslim conquest of the island and subsequent settlement, Arab potters were an important stimulus to ceramic art, importing technical procedures used in the East. The Caltagirone traps are available in different patterns and colors, from the classic Sicilian design with a leaf theme, to the peacock tail. There is also the option of customised designs.

CALTAGIRONE

I nuovi sifoni della linea Caltagirone sono vere e proprie opere d'arte create interamente a mano da esperti ceramisti di Caltagirone.

The new traps of the Ravani Caltagirone line are real works of art created entirely by hand by expert ceramists from Caltagirone.

KOMPATTO AIR

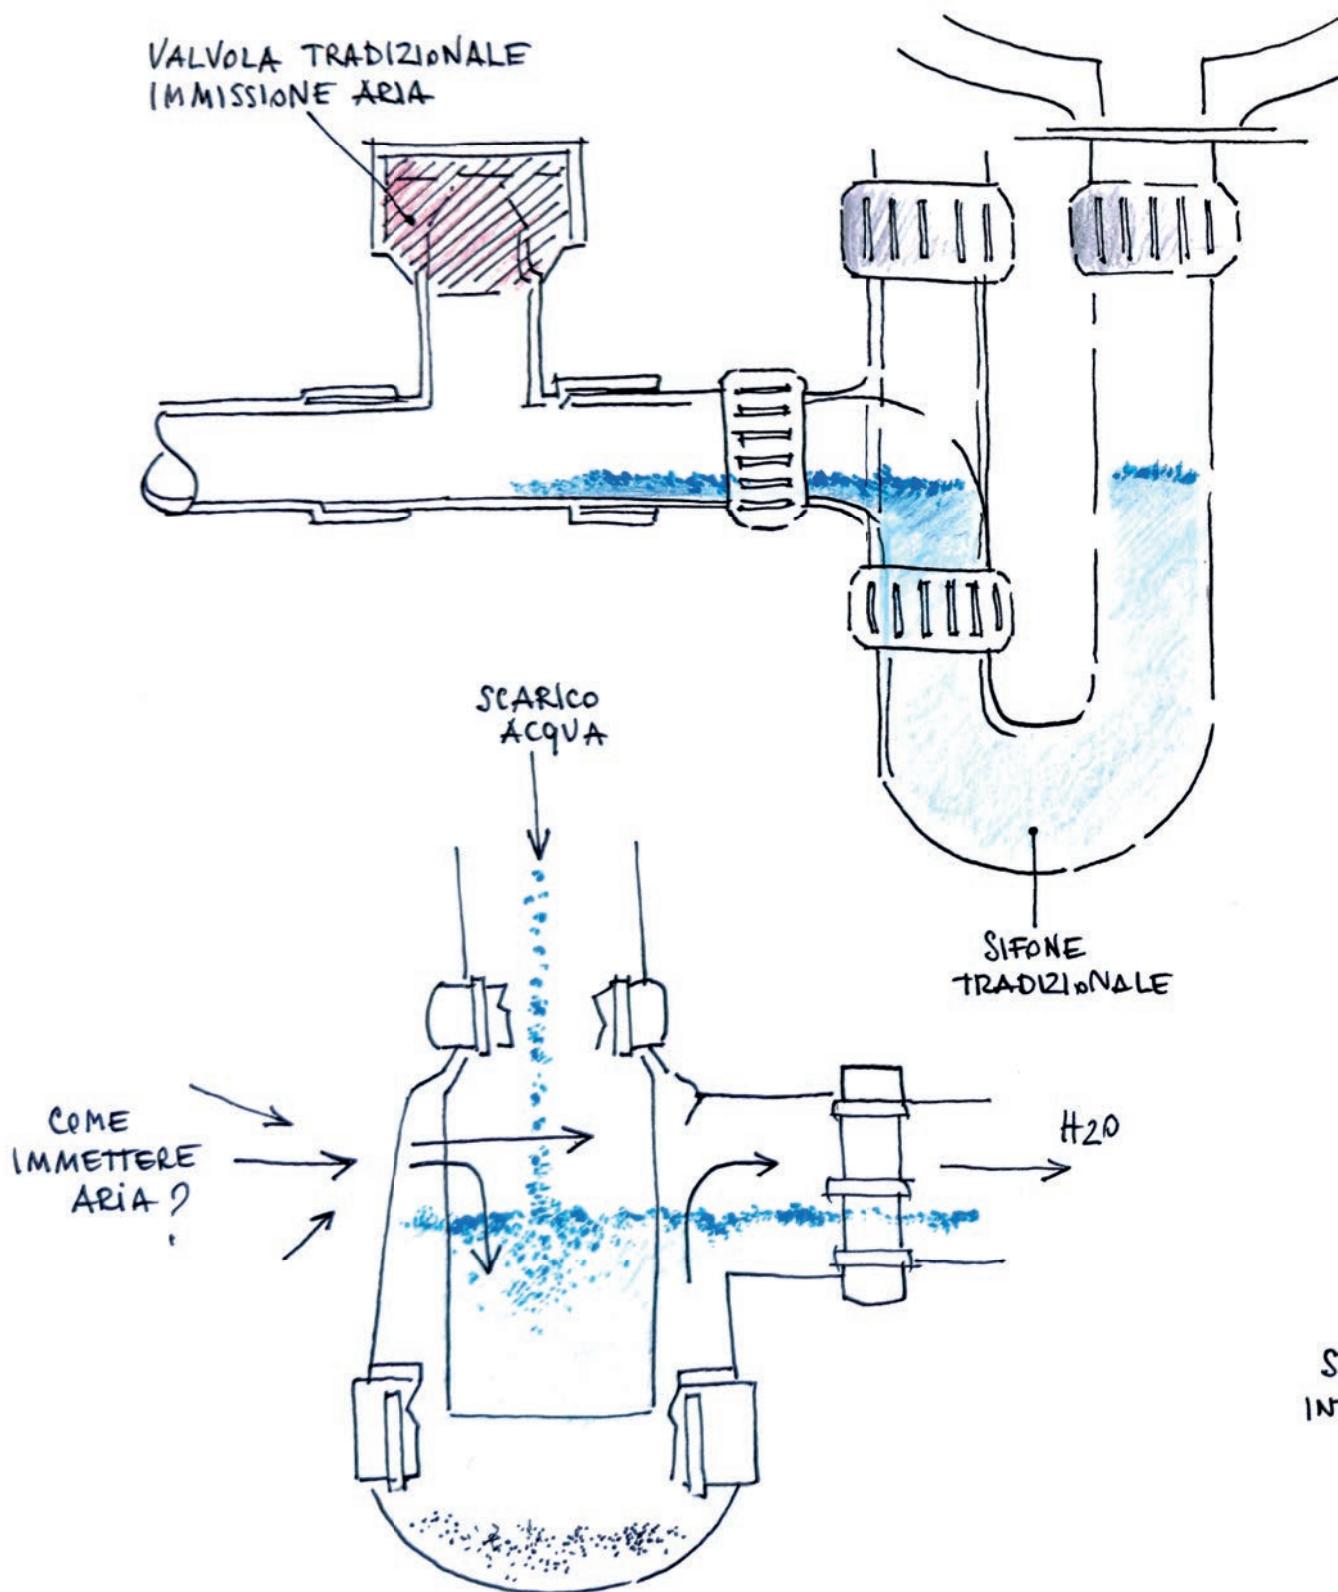

I modelli della serie Kompatto con aeratore nascono per essere abbinati alla piletta CLO.

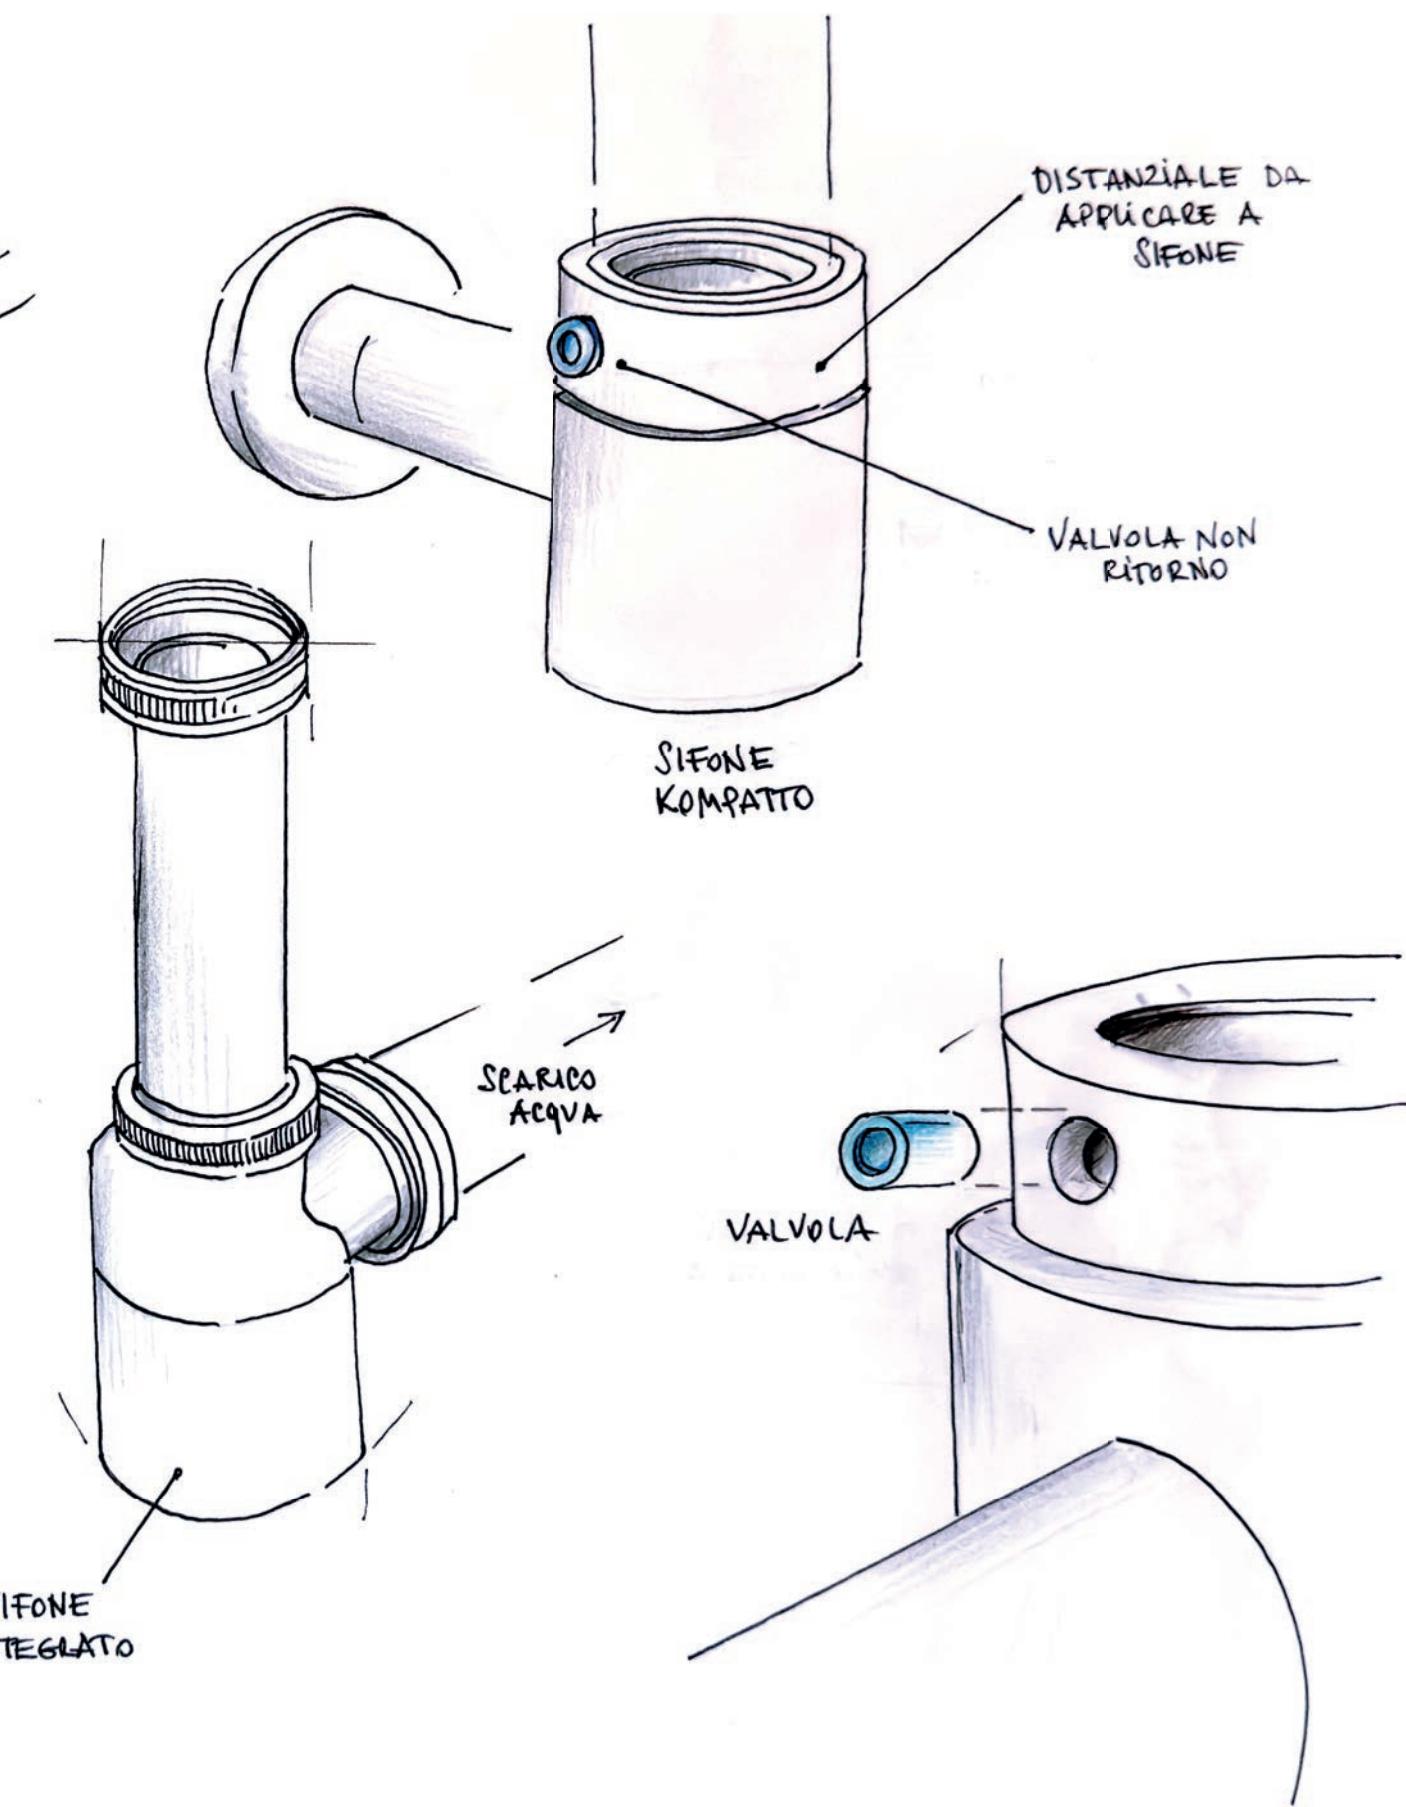

La funzione del distanziale con aeratore consiste principalmente nel regolare la pressione del flusso di acqua durante lo svuotamento del lavabo, in modo tale da evitare che le tensioni create dallo scarico possano influire sul corretto funzionamento del sistema.

La piletta CLO può essere così avvitata direttamente all'interno del sifone creando un abbinamento salvaspazio.

L'aerazione creata dal distanziale permette al meccanismo di troppopieno della piletta di funzionare nel modo migliore.

The models of the Kompatto series with ventilator are designed to be compatible with the Clo waste. The purpose of the spacer with aerator is essentially to regulate the pressure of the water flow when emptying the sink, so as to prevent the tensions created by the drainage from affecting the correct functioning of the system. The CLO waste can therefore be screwed directly inside the drainpipe creating a space-saving combination. The ventilation created by the spacer allows the waste overflow mechanism to function in the best way.

KOMPATTO AIR

108

SIFONI SALVASPAZIO

Kompatto air è il sifone salvaspazio dotato di distanziale con aeratore, da utilizzare in combinazione con la piletta CLO, per garantirne il corretto funzionamento.

DISTANZIALE CON AERATORE

La funzione del distanziale con aeratore consiste principalmente nel regolare la pressione del flusso di acqua durante lo svuotamento del lavabo, in modo tale da evitare che le tensioni create dallo scarico possano influire sul corretto funzionamento del sistema CLO. Può essere utilizzato in combinazione con il sifone kompatto

The purpose of the spacer with aerator is essentially to regulate the pressure of the water flow when emptying the basin, so as to prevent the tensions created by the drainage from affecting the correct functioning of the CLO system. It can be used in combination with the Kompatto trap

RACCORDO CON AERATORE

Il raccordo con aeratore per pilette da lavabo e bidet, utilizzato di serie nel modello Clo, piletta dotata di troppopieno integrato, è un modello esclusivo Ravani. La sua funzione consiste principalmente nel regolare la pressione del flusso di acqua durante lo svuotamento del lavabo, in modo tale da evitare che le tensioni create dallo scarico possano influire sul corretto funzionamento del sistema.

Il raccordo con aeratore, installato su qualunque tipo di piletta, grazie alle sue proprietà di regolazione della pressione dello scarico, aiuta a mantenere il corretto livello di acqua all'interno dei sifoni del tuo bagno, evitandone lo svuotamento.

The connector with aerator for washbasin and bidet drains, used as standard in the Clo with integrated overflow, is an exclusive Ravani model. Its function mainly is the regulation of the pressure of water flow during the emptying of the washbasin, in such a way as to avoid that the tensions created by the drain can affect the proper functioning of the system. Thanks to its properties of regulating the pressure of the drain, it helps to maintain the correct level of water inside the traps of the bathtub, preventing it from emptying.

CONDIZIONI GENERALI DI VENDITA:

CONTRATTO

Le presenti condizioni generali di vendita si intendono accettate dal cliente con il conferimento dell'ordine.

I contratti conclusi da nostri agenti e/o rappresentanti sono definitivi solo se da noi accettati e confermati.

Le forniture in corso verranno sospese o annullate in caso di inadempimento, anche parziale, delle condizioni di vendita o pagamento. Eventuali deroghe alle presenti condizioni devono essere convenute tra le parti per iscritto. Tutti i prodotti si intendono venduti con riserva di proprietà e divengono di proprietà del compratore solo al momento dell'avvenuto completo pagamento dei beni.

PREZZI

I prezzi di listino possono essere soggetti a variazione e non sono vincolanti se non confermati. Non sono ammesse detrazioni per sconti, abbuoni, arrotondamenti, ecc. se non pattuiti in precedenza. Eventuali ritardi nei pagamenti annullano gli sconti pattuiti. I prezzi di listino si intendono comprensivi del normale imballo standard. Per richieste di imballi diverse dallo standard verranno effettuate quotazioni al costo. Il minimo ordine richiesto è di Euro 150,00.

TRASPORTO

La merce si intende venduta franco nostra sede. Le spese di trasporto ed i rischi ad esso connessi sono a carico del cliente così come le eventuali assicurazioni sul trasporto da lui stipulate. Per esigenze di logistica e spedizione ci riserviamo il diritto di effettuare arrotondamenti sulle quantità ordinate.

CONSEGNA

I termini di consegna hanno un valore indicativo e mai tassativo dipendendo dalla nostra produzione e disponibilità della merce così come da fattori ed eventi non controllabili dalla nostra ditta. Ogni eventuale ritardo non potrà mai costituire fonte di risarcimento né causa di risoluzione del contratto.

RESI, RIMBORSI E RECLAMI

Non si accettano resi o reclami trascorsi 10 giorni lavorativi dal ricevimento della merce. Eventuali restituzioni devono avvenire in seguito all'autorizzazione del nostro ufficio vendite. Provvederemo ad effettuare accertamenti sul materiale prima di accordare sostituzioni o rimborsi. Nel caso in cui vengano riscontrati eventuali difetti di fabbricazione ci impegnereemo a sostituire i pezzi non conformi. Assolto quest'obbligo non saremo tenuti a nessun altro indennizzo. Eventuali reclami e/o contestazioni non danno in alcun caso diritto al cliente di omettere o ritardare i pagamenti della fornitura. I prodotti vengono garantiti da anomalie di fabbricazione per 24 mesi dalla data di spedizione. Decliniamo ogni responsabilità conseguente all'errata installazione o all'uso non conforme alle condizioni operative indicate a catalogo.

VARIE

Qualsiasi disegno o documento tecnico relativo ai nostri prodotti non costituisce impegno di fedele esecuzione ed è da ritenersi puramente indicativo. Tale documentazione rimane di nostra esclusiva proprietà anche se consegnato al cliente e ne è vietata la copia o riproduzione, anche parziale, senza la nostra autorizzazione scritta. Ci riserviamo il diritto di modifica di tutti i nostri prodotti senza preavviso. Per qualsiasi controversia giudiziaria il Foro competente sarà quello di Brescia.

PRIVACY

Normativa sulla Privacy completa consultabile all'indirizzo web:
<https://www.ravanidesign.com/ita/privacy.jsp>

GENERAL SALES TERMS AND CONDITIONS:

CONTRACT CONDITIONS

The present general sales term and conditions are considered to be fully accepted by the costumer upon the order confirmation. The contracts drawn up by our agents and/or sales men are not definite unless they have accepted and confirmed by our company. The pending supply will be suspended or cancelled in case of any non-compliance, even partially with our sales or payment terms and conditions. Any exceptions to the present conditions shall be agreed upon between the parties in writing form. All products are intended as sold with reservation of title and they will become property of the buyer only after the whole price has been paid.

PRICES

We reserve the right to modify the pricing at any time if not differently agreed and confirmed. No deductions are permitted for cash discounts, reductions or rounding of figures unless previously agreed and confirmed.

Quoted pricing includes standard packaging. Any packaging different from the standard is not included and it will be quoted at cost upon request. The minimum order requested is Euro 150,00

DELIVERY TERMS

The delivery term of the goods is Ex-Works. All the shipping cost are charged to the customer, including all the transportation risks and the optional insurance. For shipment and logistic reasons we reserve the right to adjust the requested quantity.

DELIVERY TIME

The delivery time are indicative and never definite, being subject to availability and production of the goods, including also other external and not controllable factors and/or events. Any possible delay can not be raised by the customer as a valid reason for any source of compensation or resolution of the contract.

RETURNS REFOUNDS AND COMPLAINTS

Complaints are accepted within 10 working days of receipt of the goods. Any return of goods can not be accepted without previous authorization from our sales department. We reserve the right to check and verify the goods before any replacement or refund. In case of verified defect products we will replace them, but under no circumstances we will provide any additional compensation. Under no circumstances any complaints or disputes will justify the customer the right to omit or delay the payments. Our products are guaranteed free of manufacturing defects for 24 months from shipping. We decline any kind of responsibility in case of incorrect installation or improper use according to the working conditions stated in our product catalogue.

OTHERS

Any technical drawing or document related to our products, even though submitted to the customer, belongs to our exclusive property and can not be used, copied, reproduced, transmitted by the customer or communicated to third parties without our prior written authorization. We reserve the right to modify our products without prior notice. All judicial disputes will be settled by the Brescia Court of Law.
